In the Saddle at 10 am

As of 2015, State Parks has enhanced the horse staging area at Saddleback Butte on the East of Lancaster. The installed fence identifies the horse staging area, plus, there are two step-over gates installed for easy access at the horse staging area, and, at the end of the horse trail. Please come and ride! Support your local California State Park! Increased attendance by campers, hikers and equestrians help to keep your local State Park stay open for all to enjoy.
